# INSTRUMENTED PLUNGER

## Intelligent Data Acquisition and Control (IDAC)

### Understand Your Well From Top to Bottom

After gathering data using our Instrumented Plunger technology, tune and monitor your operation using our IDAC system. Whether it is discovering issues in the well, or calibrating the process, our technology will boost your productivity.

### Remote Adjustments

IDAC provides you the ability to access and adjust your operation from anywhere the job takes you. Whether that is a hole in tubing, a worn-out plunger, or a leak in your surface equipment, IDAC will alert you, and provide the knowledge to optimize your operation.

### Fine-Tuning Your Well

Real-time adjustments and calculations streamline the process, increasing efficiency and reducing frustration. High-resolution transducers and proprietary calculations are utilized to determine plunger positioning, maximize lift, after-flow and shut-in setpoints, in addition to providing the ability to adjust injection rates and durations.

# Plungers

## Barstock

	Length	Price	Part #
Standard	12"	\$125	BS-2
Long	14"	\$150	BSL-2R
Mini	8"	\$100	BSM-2
Mini Rifled	8"	\$105	BSM2-R
Rifled Hollow	12"	\$175	BS-2H

## Cleanout

Aggressive design excels in dirty environments

	Length	Price	Part #
Standard	12"	\$130	CO-2
Hollow	12"	\$175	CO-2H
Long	14"	\$175	COXL-2
Superlight	12"	\$175	COSL-2
Long Superlight	14"	\$200	COSLXL-2

# Plungers

## Dual Pad

Designed for high gas volume application

	Price	Part #
Composite Pad	\$325	PD-2C
Metal Pad	\$250	PD-2M

## Single Pad

Designed for high gas volume application

	Price	Part #
Composite Pad	\$325	PD-2C
Metal Pad	\$175	PS-2m

## Valve Rod

Pad plungers are built with the fewest parts to cut costs and reduce failures.

	Price	Part #
Valve Rod	\$325	VR-2
Metal Pad	\$175	VR-2PM

# Impact Springs

## Standard Brass

Less downtime and lower wireline cost.

	Price	Part #
Standard Brass	\$475	SS-2
W/ Standing Valve	\$500	SSV-2
W/ Standing Pressure Valve	\$525	SSPV-2

## High Impact

Less downtime and lower wireline cost.

	Price	Part #
High Impact	\$600	HI-2
W/ Standing Valve	\$640	HIPV-2
W/ Standing Pressure Valve	\$700	HIPV-2

## Other Springs

Less downtime and lower wireline cost.

	Price	Part #
Standard Spring with F Stop	\$500	SSV-2F
Standing Valve Pressure Relief Spring with F Stop	\$525	SSPV-2F
Packoff F Stop Spring	\$1250	SSPV-2FPACK
Stage Tool F Stop	\$1500	SSPSTAGE-2F
Spring with Collet	\$350	SS-2C
